# For Healthy, Natural, and Youthful looking Skin

- This System works at the cellular level using topical prescription strength products combined with effective enhancing products to produce noticeable and lasting change in your skin's appearance. Individual regimens, created by you and the physician, allow for your desired amount of correction.
  - The products are specifically formulated to provide you, the patient, the opportunity to return your skin to a healthy, and youthful appearance.
  - The natural ageing process and photo-damage cause cellular damage and a reduction in normal cellular function. To create healthy skin, you must combat the signs and effects of aging by producing results at the skin's cellular level.
- RESULTS OF AGEING**  
Fine lines and wrinkles  
Dry, unhealthy looking skin  
Uneven skin tone, and age spots  
Hyperpigmentation
  - TO COMBAT THE SIGNS OF AGEING**  
Improve the skin at the cellular level
  - THESE PRODUCTS ARE**  
Topical prescription drugs  
Formulated with natural botanicals, vitamins, and antioxidants  
Customized into individual regimens by the medical professional

	PRODUCTS	BENEFITS
CLEANSE	<b>CLEANSER</b> 8oz Removes impurities, makeup, excess oil, and dead skin cells without irritating or altering the normal skin function. Available in Cream (dry to normal) and Gel (normal to oily).	Any effective program begins with the proper cleansing of the skin by removing all impurities allowing for the full benefit of the products.
	<b>TONER</b> 8oz Formulated to restore the natural pH of the skin. Soothes rough skin.	Restoration of the skin's natural pH greatly enhances the efficacy of the products allowing for maximum benefits.
CORRECT	<b>SKIN LIGHTENER Rx</b> 2oz A prescription strength formulation of hydroquinone which reduces the production of melanin producing even skin tone and removes areas of pigmentation.	Areas of discoloration or hyperpigmentation must be corrected by reducing melanin production by melanocytes. Hydroquinone is a drug that interrupts the process.
	<b>EXFOLIATOR</b> 2oz Contains alpha hydroxyl acids providing a gentle exfoliating action that improves the skin's texture and smoothness. Available in two strengths.	Alpha hydroxyl acids have been shown to reduce pore size and increase smoothness by lightly exfoliating the upper layers of the skin.
	<b>BALANCER Rx</b> 2oz A special formulation of hydroquinone, alpha hydroxyl acids, and saponins to enhance effects. Usually used in conjunction with prescription strength tretinoin.	When used in conjunction with tretinoin, keratinocytes return to a normal skin cycle. Benefits are improved skin function, diminished fine lines and wrinkles, improved elasticity, and restoration of natural hydration.
PROTECT	<b>SUN PROTECTION</b> A necessary part of the regimen. All products provide UVA/UVB protection and are formulated to work with the regimen. A special formulation contains hydroquinone for severe hyperpigmentation.	To minimize the harmful effects of the sun, and limit additional damage.

The La Fleur products are:

- Well tolerated and easy to apply with an improved delivery system,
- A proprietary formula that provides a stable and odorless hydroquinone,
- Presented in easy-to-follow step by step regimens, and
- Sure to provide maximum results.
